

# The RESTEK Advantage / Articles June 1990 – June 98

The **RESTEK Advantage** is a regular newsletter featuring Review articles on a wide variety of technical issues relating to chromatography and GC / HPLC.. New product releases appear here first and are collected into the Restek Chromatography Products Catalog each year – generally released for the PITTCON in March each year.

Special Mini-catalogs are also available on specialty products or application

**The printed Restek '98 catalog is approx 640 pages is NOW available for the asking**
