## Nutech 3610 Autosampler

The Nutech 3610 autosampler features 16 inlet positions that bring Nutech’s automated analysis capabilities to a wide variety of vacuum sampling canisters and Tedlar® bags. The 3610 autosampler easily connects to our 8900DS/8910 Preconcentrator for the automated analysis of VOCs in canisters with US EPA TO-14A, TO-15A and China EPA HJ 759-2015 and HJ 1078-2019 requirements.

### Typical Configuration

## Nutech 3610 Autosampler Features

## Nutech 3603 Autosampler (3610 Predecessor Model)

### 1. Compatibility

Compatible with different types and specifications of sampling canisters on the market. Equipped with Nutech's ETC adapters, it can easily connect with Tedlar bags, syringes, and sampling bottles.

### 2. Fully Automatic Sampling

Up to 16 sampling canisters can be analyzed in accordance with EPA Methods TO-14A and TO-15A. The automated system can be programmed to set the order, duration, and volume of the sampling sequence. The system can be upgraded to parallel injections with dual detectors to improve efficiency.

### 3. No Pollution

The inner wall of the pipeline is silanized. The system has the functions of automatic leak checking, heating and backflush. The system minimizes contamination and carryover of samples, and ensures sample accuracy and precision.

### 4. Ergonomic Design

High and a stable base allow for easy movement. Canister support platforms can be closed, saving laboratory space.

## Nutech Instruments Product Family

Air Lab Sample Prep Products	Air/Gas Sampling Products	Online VOCs Analysis Products	Portable VOCs Analysis Products
8910 Preconcentrator	2703 Automatic Air Sampling Device	6000-C NMHC Online Analyzer	3000 Portable NMHC Analyzer
3610 Autosampler	2600ST Multifunctional Automatic Air Sampling System	6000-5D VOCs Online Analyzer	<b>Accessories &amp; Consumables</b>
2104 Canister Cleaning System	2600GT Carry-on Automatic Multifunctional Sampling System	PCGC-TOF VOCs Online Analysis System	
2203 Precision Static Dilutor		N20 TVOC Online Analyzer	
7000 NMHC Analyzer			SUMMA Sampling Canister & Standard Gas & Tedlar Bag
