

Restek International

Your Global Source for Restek Products, Support, & Service!

Restek is committed to meeting the needs of our customers worldwide. What’s the best way to do that? Provide global Plus 1 customer service and innovation.

Over the past year, we have increased resources in our International Sales Team to ensure that we exceed your needs and provide the best customer service in the chromatography industry. Restek has expanded its international dealer network to allow us to better service the needs of chromatographers in every corner of the world. We update our dealers list throughout the year to provide exceptional service to all chromatographers worldwide as global needs change. Visit www.restek.com for the most up-to-date list.

Our Team

Restek continues to offer international distributors and customers full support with a dedicated, specialized International Sales and Marketing Team.

Our team members bring many years of experience in chromatography and are highly trained to understand international customer needs. We are supported by the knowledge, experience, and expertise of more than 250 Restek chromatography specialists, product managers, manufacturing chemists, customer service, technical service, and shipping professionals.

We value our relationship with you and look forward to serving the needs of our international dealers and customers. Contact us and let us know how we can best meet your chromatography needs. To locate your local Restek distributor, please refer to pages 4–5 in the catalog, or visit our website at www.restek.com.

our **GOAL...**

to be “*The Company that Chromatographers Trust*” worldwide!

Chromtech still provides valuable Restek Tech Literature to “loyal” Australian Customers as a “**Technical Resource**” including “archival” material not necessarily still available from Restek > 2020 : PDF and FlipPage links whilst still on our Website are being incrementally transferred to a Chromalytic restricted “backup site” > registration may be required > **ASK!**
