# PeakSimple Software Features

ZOOM TWO WAYS

Click and drag the mouse cursor to draw a rectangle around an area you wish to enlarge, and that area will expand to fill the chromatogram window. This may be done multiple times. Clicking on the unzoom icon ⊕ in the toolbar unzooms the view one level at a time until it returns to the original resolution.

A mouse click on one icon vertically enlarges the peaks in the chromatogram, decreasing the y-axis display limits by a factor of two.

A click on another icon increases the display limits by a factor of two, vertically shrinking the peaks.
