

Model No. : DA5001/4C

Brand Name : DYN AIR

**Oil-less, Portable
4cfm, 4liter
25/22kg net
560x250x550mm**

Product Description

CHARACTERISTICS:

- OIL FREE: Do not need any lubricated oil, and harmless to the human body.
- SUPER SILENT: Noise level lower than 56DB(A) to reduce noise pollution.
- MULTI-PHASE FILTERATION: Advanced multi-phase filtration to ensure extremely clean air, and lengthen service life.
- SAFETY USING: Air compressor motors equipped with thermal prevention device to avoid overheating and protect motors.
- CLEAN TANK: All air receiver tanks have internal epoxy coating applied to avoid corrosion.
- AUTOMATIC ADJUSTMENT: High quality pressure switch used to control the power of air compressor automatically by adjustment of pressure level.
- PRESSURE ADJUSTMENT: Working pressure could be adjusted to meet the demand of different supporting equipments.
- HIGH DURABILITY: Serviceable time exceeds 15,000 hours.
- SIMPLE OPERATION: Using directly when connecting with power.
- EASY MAINTANANCE: No need any lubricated oil.
- WARRANTY: 2 years.

Payment Terms :	TT in advance/ Paypal/ LC at sight
Packing :	CARTON/WOODEN BOX
Lead Time :	within one month after receive order confirmation
Standards Certificate :	CE/FDA/ISO9001/ISO13485
Specifications :	Power: 550W [3/4HP] Air Flow: 115L/M [4.03CFM] Noise Level: 49dB(A) Max. Pressure: 8Bar [0.8Mpa] Air Tank: 4L [0.89Gallon] Gross/Net Weight: 25.5/22KG [56.1/48.4Pound]

Silent Air Compressor DA5001CS

Model No. : DA5001CS

Brand Name : DYNAIR

Oil-Less, 4CFM, 22L
78/55kg net
500x650x770mm

Product Description

The oil-less DynAir compressors are available in protective metal cabinets. The cabinets reduce the sound emission from the already quiet oil-less from the already quiet oil-less compressor to a level that is approximately one quarter of the level of basic compressors. The cabinets are designed individually for each model with an aesthetic look and with usability, hygiene as well as easy maintenance in mind. All cabinets are equipped with the universal wheel with foot-brake, enabling mobility and re-arrangement of installations and thus providing a high degree of flexibility.

The cabinets are treated with a matt textured powder coating which is hard wearing and enables easy cleaning. The color of the cabinets is making the compressors blend naturally with the equipment found in most laboratory, medical and other environments.
