

Membrane Solutions — Beyond Pure

Membrane Solutions is a provider of micro porous membrane products, technologies and services. We meet filtering needs of customers in a number of different industries, including the biosciences, industrial processing, laboratory testing, food & beverage, electronics and water treatment.

Membrane Solutions is striving for excellence in its field through our innovative and competence products, such as **Syringe Filter**, **Membrane Filter**, **PTFE Membrane**, **Filter Bag** and **Cartridge Filter**. Moreover, **OEM Service** will provide quality and flexible products and technology for our partners.
