## Microplate Mixer

**Another revolutionary product from the makers of the Vortex-Genie®!**

- Aggressive mixing speed from 750-3200 RPM for complete and uniform mixing in any microplate format.
- Small vortexing orbit of 1.0mm for thorough mixing regardless of sample viscosity.
- Speed and orbit combine to offer true vortexing action in each well of a microplate.
- Accepts most microplate types within the recommendations of the Society for Biomolecular Screening (SBS), even in 384-well formats.
- MicroPlate Genie may be used with any single microplate (see reverse page.)
- Multi-MicroPlate Genie may be used to shake up to 4 microplates, an optional accessory deck is available to double capacity to shake up to 8 microplates at one time.
- Both models may be used in cold rooms and incubators for temperature sensitive applications.
- Built-in timer operates from 1 - 60 minutes or continuous for hands-free use.
