

Air Monitoring

- TO-Can™ Canisters w/Swagelok® Bellows-Sealed Valves (page 404)
- Replacement Swagelok® Bellows-Sealed Valve (page 405)
- Ashcroft Test Gauges (page 405)
- Canister Air Sampling Timer (page 406)
- Thermal Desorption Unit Tubes and Accessories (page 410)
- PUF Cartridges (page 411)
- Cali-5-Bond™ Gas Sampling Bags (page 412)
- Gas Standards in PI-marked Cylinders (page 413–417)
- Sulfur 5-Component Mix (page 415)
- TO-14/TO-15/TO-17 Performance Test Mix (page 415)
- Sulfinert® Treated Ultra-High Pressure Sample Cylinders & Valves (page 419)

Restek Performance Coatings

Restek Performance Coatings continue to supply solutions to a wide variety of industries:

- Silcosteel® HotHead coatings are now being offered to address issues with oxidation in high temperature environments.
- Siltek® coatings are providing inert sample pathways for manufacturers of mercury analyzers.
- Sulfinert® coatings provide the most inert surfaces for transfer of sulfur containing streams, providing a valuable service for samplers used by refineries, bottlers, and the oil and natural gas exploration industries.
