

# Restek International

Restek recognizes that exceptional customer service is what separates us from the rest. We promise to provide you with the best support in the industry.

## International Sales Managers

Restek's international sales managers are trained to assist customers in choosing chromatography supplies to optimize performance and improve laboratory efficiency. They build the awareness of Restek products throughout the world by offering distributor training, attending trade shows and technical symposiums, and establishing distribution channels in the global chromatography market. For countries not listed in the catalog or on [www.restek.com](http://www.restek.com), please contact Karen Kishbach.
