

# STAR Service Rewards

Restek Corporation has formed an alliance with some of the premiere independent instrument service providers in the United States, with a goal of bringing you the finest chromatography operating supplies, equipment service, and applications support available—**STAR** the Service and Technology Alliance by Restek.

The **STAR** Service rewards program pays you for using Restek products, by reducing your costs for quality instrument service through **STAR** Service Rewards points. Similar to our popular Restek Wizard Dollar program, **STAR** Service Rewards pays you one **STAR** Point for every \$50 of Restek products you purchase. Redeem **STAR** Points with participating **STAR** member service providers for selected service, equipment, and training products. You get the finest chromatography operating supplies from Restek and high quality instrument service from your preferred service provider. **STAR** Service Rewards is one more example of why Restek is the company chromatographers trust for complete chromatography support.

Maximize your **STAR** Points by choosing Restek supplies for all your chromatography needs. Take a few minutes to review this catalog. You will see the wide variety of quality, economical supplies you can get from Restek, while increasing your lab's **STAR** Points and Wizard Dollars at the same time. Innovative and proven Restek chromatography supplies include:

- autosampler vials
- ferrules
- FID jets
- filters for GC & HPLC
- gas generators
- gas leak detectors
- gas purifiers
- Hamilton & SGE syringes
- HPLC system parts
- inlet liners
- inlet seals
- instrument repair parts
- mobile phase accessories
- PID lamps
- plumbing supplies
- pressure regulators
- Press-Tight® column connectors
- septa
- fittings and tubing for GC & HPLC
- tools

For more information about the **STAR** Service Rewards Program, or to register:

- contact your Restek representative (see page 3 for listing)
- call Restek Customer Service at 800-356-1688, ext.3
- go to the **STAR** page on the Restek web site at
