

Restek Learning Network

Educated, empowered chromatographers make productive analysts. Widely acclaimed Restek seminars and training events reduce guesswork, improve throughput and reliability, and raise confidence in generated data. The Restek Learning Network (RLN) offers training solutions to fit every level of expertise, budget, schedule, and analytical topic. From a full-day method development course to a one-hour ASTM method-specific webinar, the RLN provides a wide variety of educational vehicles. We also will travel to your lab and tackle your toughest analytical challenges.

RLN On-the-Road

For 22 years, Restek chromatographers have hit the road, training analysts across the United States and abroad. An economical package with useful, practical content, RLN On-the-Road events deliver maximum impact. These venues remain the most popular choice for many chromatographers.

Some popular RLN On-the-Road topics include:

Fundamentals

- Comprehensive GC
- Comprehensive HPLC

Intermediate

- GC/MS
- LC/MS

Application-Specific

- Environmental Analyses
- Petrochemical
- Food and Food Safety

Advanced

- LC Method Development
- GC Method Development

Priced well below industry standards, these courses cost only **\$200 per person**. Enrollment fee includes all seminar materials, a continental breakfast, lunch, and afternoon refreshments. Pursue current courses and register online at www.restek.com/seminars
