

Custom Standards

Restek is your #1 source for custom reference standards!

- **Made to your specifications.**
- **Quick quotations.**
- **Most reference standards shipped within 15 working days.**
- **The more you buy, the more you save.**

ALL mixtures are produced in accordance with our ISO 9001:2008 registration.
Analytical balances are calibrated at seven mass levels using NIST-traceable weights.
ALL raw materials used are a minimum of 97% pure; otherwise, their weight is corrected.
