

What happens when “off-the-shelf” just doesn’t work? The Design Center builds a new shelf!

Your Solution. Faster. For less.

With project requirements and timelines becoming increasingly demanding, it’s critical to partner with a team who understands fluid management solutions and the rigors of today’s medical device and biotech markets. Team up with the Value Plastics Design Center for your custom connector needs, whose market leading service, quality and delivery you’ve already come to know.

Here’s what you can expect from our Design Center and the “Specialists in Fluid Connections”:

Save Time – Talk to someone who understands your application requirements. The Design Center works with you to determine the most suitable material and design options to deliver the best performing product as cost-effectively as possible. We also utilize state of the art rapid prototyping techniques and in-house testing facilities to keep your project moving quickly and economically.

Save Money – Start with our existing product offering of over 4,000 fluid connectors, or utilize some of our existing mold configurations toward perfectly customizing a part to your application. Don’t forget, our technical and design assistance is FREE!

Save Trouble – Ensure that everything around your project will be done right the first time. Our dedicated and experienced staff will make sure that the finest details are covered from the time that we review your product requirements to the final product qualification.

The Design Center can also assist you in developing fluid connectors that comply to emerging standards. Value Plastics is an active member of the ISO 80369 standards group defining new standard connectors for small bore, medical device connections.
