

THE VALUE PLASTICS DESIGN CENTER

Specialists in Fluid Connections

We sometimes hear our customers say **“That would be the perfect fitting if only . . .”** We know a lot is expected of you: leading-edge product capabilities, lower costs, shorter design times, compounded by issues such as biocompatibility, precise flow rate requirements and tight physical envelopes.

As much as you might like to be, you know you're not an expert in everything - especially when it comes to specifying fittings and connectors that are often not your area of expertise.

Make it easy on yourself.

Contact the connection experts at the Value Plastics Design Center. Together we can develop a solution delivering exactly what you want, when you need it, with exceptional quality, at a surprisingly affordable price. Our dedicated team of fluid connection professionals collaborates with you to solve your most difficult challenges.

Our Design Center experts provide:

- Expert and timely design assistance from our dedicated technical staff with years of experience solving real world fluid connection challenges
- Technical support before and after the sale
- In-house testing facilities to validate and qualify design alternatives
- Assistance with medical qualification requirements needed to transform your design into a validated product.

Your Solution. Faster. Cheaper.

Value Plastics is dedicated to meeting your demanding quality and capability needs. The Value Plastics Design Center works with you to develop custom solutions keeping your projects moving - on time and within budget, whether it's a totally new concept or a refinement of one of our 3,100 products.

Call us today. Let the Value Plastics Design Center show you how we can affordably meet your exacting flexible tubing connector and fitting needs no matter how complex they might be.
+1 866-582 0965.

It's not often that one of our 3,100 off-the-shelf tubing fittings can't fill your application need. But when they won't, call on the Value Plastics Design Center. Our dedicated team of fluid connection professionals will collaborate with you to find the most appropriate and cost-effective solution.

As an example, a medical device manufacturer recently brought a challenge to the Design Center. Their device's tube fittings had the potential to be misconnected with similar, but distinctly different use, tubing fittings. The Design Center analyzed several potential connector solutions and, using Value Plastics' extensive application engineering base, developed a custom fitting that used reliable sealing technology negating any possibility of misconnect within the customer's proprietary surgical system and their corresponding clinical environment. The resulting custom fitting was engineered easier to use, has higher flow rates, and prevents misconnections, all resulting in greater competitive advantage for the customer.

The Value Plastics Design Center really can provide YOUR solution, faster and cheaper. Contact the Value Plastics Design Center today for an initial consultation, +1 866-582-0965, or email designcenter@valueplastics.com.

On the following 2 pages, 38-39, are examples of custom solutions that Value Plastics has developed. They are displayed to provide an idea of some of the most common modifications available. All the individual parts shown are available on special order. To review case studies, please visit our website at www.valueplastics.com/products/design_center.aspx
