Value Plastics offers two distinct families of quick connect fittings (quick disconnect couplings), the SBL and XQC Series products, for applications covering 1/8" (3.2 mm) through 3/8" (9.5 mm) ID tubing.

THE SBL SERIES

QUICK CONNECT FITTINGS

The SBL Series connector system is so intuitive that users just automatically know how to operate it the minute they pick it up. SBL Series quick connect fittings are cost effective and designed to meet your needs for a reusable component for small-bore applications in all fluid delivery areas. The SBL Series range is available in nylon, in two contrasting colors and fits 1/8" (3.2 mm) and 3/16" (4.8 mm) ID tubing, for in-line applications. Contact us today for free samples and make this exciting new fluid link part of your next design.

THE XQC SERIES

QUICK CONNECT FITTINGS

The XQC Series quick connect fittings available in open flow and with integral shutoff valves, bring performance, convenience and utility to your tubing applications. XQC Series products fit 1/4" (6.4 mm) and 3/8" ID (9.5 mm) tubing and are produced in acetal and polypropylene in five basic configurations — in-line male, in-line female, male panel mount, female panel mount and elbow. For versatility, durable XQC Series couplings interchange with other plastic and metal button-type couplings. Bring performance and service to your tubing applications by specifying XQC Series quick connects.
